RIANNE STREEF – WEB DEVELOPER

Dutch citizen, +33 6 81 92 78 55, riannestreef@gmail.com, riannestreef.github.com, www.riannestreef.com, Val Thorens – France.

ABOUT

In 2020 I decided to turn this negative COVID situation into a positive experience and I started my education in web design and development. Driven by my curiosity to create and innovate and my passion for logic and coding I applied at OpenClassrooms.

Fascinated by new ideas, both in terms of development in familiar fields as in new subjects. This, and being client oriented makes me widely deployable.

Now I have completed my education I want to show people what I am capable of. Work in a team of people that are innovative, enthusiastic and communicative. Motivated and ambitious to further develop my skills and learn new techniques.

SKILLS

- Highly motivated to find practical and creative solutions as a team player.
- Strong communicator who encourages structured workflows.
- Great adaptability ensuring efficient project management.
- Strive to write clean code with proficient HTML5, CSS3 and JavaScript, and further develop my skills with React. Version control is always applied with Git.

WORK EXPERIENCE

OpenClassrooms - professionalizing projects including:

- Built a portfolio using HTML and CSS including animations
- Improved an existing website using SEO and accessibility
- Created a Reddit like website – a full-stack project with React, SQL and Node.js

Assistant managing director – Club Bamboo – 4* boutique resort – Phuket, Thailand

- Improved efficiency by >10% by implementing a completely automatized excel worksheet for accounting purposes.
- Reported on Google analytics and online actions to determine best strategies for online marketing.
- Increased insight in target market by extensive analysis to enhance marketing strategy.

LANGUAGES

Dutch – Native speaker
